Subject: Test Definitions added for Massachusetts Compliance
Importance: High

Robin,

The following test definitions have been added to the system:

MA-TPM
MA-TAR
MA-NIC
MA-H2O
MA-PUFF
MA-PH
MA-NIC-FLR

The pH and the nic-flr are for manually entering of data only as I know we do not have time to interface these with instruments, etc.

Call me if there are any questions. We will probably start logging these samples in on Monday if everything is a go by that time. Let me know when you have done your part and thanks ahead of time for your understanding of this project. Any questions, please give me a call.

"Liz" Chambers
